THE DAFFODIL FARM

WALTER R. TAYLOR
ROUTE No. 4
OLYMPIA, WASHINGTON

Spring 1940

Dear Friend:

In case you take time to read this, we would like to suggest that we grow Tigridia bulbs and fine quality Hybrid Delphinium plants, for spring planting.

We have Tigridia in two colors, orange and yellow. Plant early about 3 inches deep in full sun or some shade. They bloom from July to late fall, and bring bright color to the flower garden with their attractive blooms. Orange Tigridia, 6 for .30; 12 for .50; 100 for \$3.00. Yellow, 6 for .40; 12 for .75 postpaid.

The sky will always be blue in your garden if you have plenty of Delphiniums. You will like our strain that has been built up with care over a period of fifteen years. The colors range thru the blues and purples in both single and double. We sell them in mixture only, none having been labeled when in bloom. That enables us to sell them to you at the attractive price of \$1.00 per dozen postpaid, for sturdy, well rooted, field grown, year old plants.

Thanking you, I am

Respectfully,

Walter R. Taylor
